BEING AN
FULL STACK DEVELOPER

M/F/D | WIENER NEUDORF | FULL TIME (40 H/WEEK)

At VEROO, we passionately work every day serving our purpose – shaping integrated and predictable logistics to enable smart transportation and delivery of goods. We see customers struggling across their supply chains due to a lack of predictability, accurate data, and integrated systems. To overcome these challenges, we support them by digitizing their transport and logistics processes with a strong focus on transport visibility. VEROO is part of the WALTER GROUP, enabling us to combine long-standing industry expertise with agility and innovation. If you are someone who likes to work in a start-up minded team that moves fast to create impact but still wants to benefit from the access to a corporate industry leader, VEROO is the place for you. We are now keen to expand our core team with this key role and invite you to shape the digital future of transport and logistics with us.
Job Vision.

We welcome you in a setup being solely public cloud native (GCP, Atlassian, Github, Auth0 etc.), that leverages managed services at maximum, stand on the shoulders of giants and pushes operational burden to a bare minimum. Today we successfully established a first generation of business products provided as cloud services per M2M API's and Web UI's to our customers – built as component based, self-contained and autonomous domain systems. We offer an environment that fosters innovation, enables creative collaboration, and allows you to grow.

Working in a **Domain Driven Design** (DDD) and **Team Topologies** (TP) environment as a Senior Developer with DevOps skills, you will be joining a team of developers in designing and implementing solutions for complex software systems. You will also be responsible for overseeing the deployment and maintenance of these systems, ensuring that they are reliable, scalable, and secure. In this role, you will work closely with other members of the team to define architecture and technical strategy, and will play a key role in mentoring and guiding junior members of the team.

Responsibilities.

→ Lead by example junior developers in designing and implementing software solutions
→ Oversee the deployment and maintenance of systems, ensuring they are reliable, scalable, and secure
→ Work with other senior team members to define architecture and technical strategy
→ Mentor and guide more junior members of the team

Your Profile.

→ Extensive experience as a software developer, with a strong background in a variety of programming languages
→ Strong experience with DevOps tools and processes, including continuous integration, continuous deployment, and infrastructure automation
→ Excellent communication with the ability to work collaboratively in a team environment
→ A passion for learning and staying up to date with the latest technologies and industry trends

Ideally.

→ Multiple years of experience as Developer in a DevOps environment
→ Experience with application, data and technology architecture design relating to solving business issues
→ Ability to learn and work with new emerging technologies, methodologies and solutions in the Cloud/IT tech space
→ Experienced in agile software development methodologies (Scrum, Kanban, XP, Lean) as well as moderating technology related workshops and refinements based on agile principles
→ You are fluent in English and good in German

Your benefits.

→ Self-determined, independent work and opportunity to quickly take on responsibilities
→ Possibility to actively shape our products and company into something bigger
→ Work in a startup-minded team with the resource continuity of a long lasting corporate
→ Modern working environment in Wiener Neudorf (on the southern outskirts of Vienna), free shuttle service from Vienna plus the option to work from home
→ Numerous social benefits (employee restaurant, support for lunch, in-house pub / lounge, free parking, extensive sports facilities, numerous employee events, language courses, support in finding accommodation during relocation and more)
→ Annual gross salary between 60,000 and 80,000 € (all-in) paid out 14x per year, based on qualifications and previous experience with optional bonus clause

Apply now.

VEROO warmly welcomes all people regardless of age, skin color, gender, sexual orientation and cultural background and celebrates diversity. We are looking forward to your email application via **career@veroo.io**. If you have any questions, please do not hesitate to contact our recruiter Gabriele Vollnhofer via vollnhofer@veroo.io.
